

# ENVIREO - Strategic Initiative Cluster

Mainstreaming sustainable building practices across North West Europe.

- ★ 4 European Interreg IVB projects
- ★ 6 countries
- ★ 30 European partners
- ★ 20 demonstration buildings
- ★ 4 innovative tools in sustainable buildings
- ★ 100 building eco-materials
- ★ 1 shared methodology from small buildings to large halls, and from heritage buildings to new constructions.

- ★ Raising Awareness
- ★ Providing practical guide for policy makers and building experts
- ★ Reducing energy consumption and CO2 emissions

Whether it's about building materials (Cap'em), restoration of heritage monuments (Livinggreen), industrial buildings (Regain) or low carbon stations (SusStation), the ENVIREO Strategic Initiative Cluster enables 30 European organisations from 6 countries to work together on mainstreaming sustainable building practices.
